Enhancing Lives—It’s What We Do

When we first started Melaleuca in September 1985, our vision was to market items containing Melaleuca Oil—a natural product that we believed had tremendous potential. We didn’t like the traditional business model of using middlemen and retail stores to sell the product, so we came up with a simple way for customers to earn commissions by referring others to purchase our products directly. This helped keep our costs lower and created a unique way for the average family to earn additional income in their spare time. We quickly learned that the demand for natural products was much greater than we had predicted. We also discovered many other natural ingredients that were highly effective in treating or preventing various health problems. Our vision grew as we met scientists with years of experience developing natural products that are more effective than the grocery store brands.

Some of these scientists had developed remarkable products but had no way of marketing them. Major corporations weren’t interested in natural products because of the difficulty of patenting natural ingredients and their uses.

Because these larger corporations don’t have products with exclusivity protection, they focus more on discovering patentable synthetic ingredients that are mass-produced with low costs and high profit margins.

Our philosophy has been different from the beginning. We built partnerships with scientists like Dr. Garry Buettner of The University of Iowa for the revolutionary discovery of our patented Oligo® technology and Dr. Larry Wang who patented the discovery we used in the original Access® Bar.

Because of these partnerships, Melaleuca’s popularity has exploded, becoming one of the fastest-growing companies in North America with more than $2 billion in annual sales worldwide. We continue to focus on products that contain only the finest natural ingredients. We carry only products with documented science supporting their effectiveness. We don’t, and won’t, market products whose popularity is based on folklore.

In our catalog you’ll find the work of dozens of scientists, doctors, pharmacists, cosmetologists, and other experts. Many of our products were developed and perfected by our own staff, but we continue to look for and build partnerships with outside scientists as well. As you use them, we believe your experience with our products will exceed what you’ve had with grocery store brands.

Our original concept of having customers refer other customers to Melaleuca in their spare time has expanded. Today, thousands of households depend on Melaleuca as their sole source of income, and hundreds of thousands more receive part-time “thank you” checks for having helped us spread the word.

We believe in partnering with “the little guy”—average families. Our mission is “To enhance the lives of those we touch by helping people reach their goals.” When you purchase Melaleuca products, take comfort in knowing that not only are you using exceptional products, but profits from your purchase also help families across the United States and Canada.

We enjoy helping folks live a longer, more vibrant life. At the same time, we’re helping average people get ahead financially. Enhancing lives—it’s what we do.

FRANK L. VANDERSLOOT
CHIEF EXECUTIVE OFFICER

PRODUCT PHILOSOPHY
You and your family deserve the absolute highest-quality products. No corners cut. No shortcuts taken. Only the highest-quality products will provide your family the absolute best value. We don’t add extra water or fillers. Wherever possible, we use naturally derived ingredients instead of synthetic chemicals. Your health and safety are our top concerns. So the ingredients we use are well researched and proven to provide the experience you expect.

If a product isn’t superior, we won’t sell it. All of our products must either 1) outperform the competition, 2) provide benefits that the competition can’t, or 3) deliver equal or better quality at a much better price.
SHOP SMARTER AND GET ADDITIONAL BENEFITS WITH MELALEUCA

We’re able to do this because when you buy Melaleuca products, you’re shopping directly from the manufacturer. In addition to the discounts, your dollars are going toward research-backed formulas made with the highest-quality ingredients. Our 400+ wellness products provide natural solutions for the wide variety of health and wellness challenges you and your family face.

Melaleuca isn’t a typical company. While other companies define themselves in terms of profit and growth, we measure our success by an entirely different factor—our ability to enhance your life.

When you take the focus off the profits and put it on your customers, something amazing happens. You get products that are safer for your home, gentler on the environment, and a better value than anything you’ll find on the shelves of a grocery store.

But Melaleuca’s definition of wellness extends far beyond products. Chances are, you learned about Melaleuca from a friend, coworker, or neighbor. That’s because we don’t spend money on advertising or retail middlemen. And as a result, we are able to share our profits with those who share our products. And while Melaleuca offers 400+ exclusive wellness products that we formulate, manufacture, and distribute ourselves, they represent something far more valuable than items on a shelf—they represent the ability to enhance your health, your environment, your finances, and your quality of life. That’s why Melaleuca exists. That’s why we’re known as Melaleuca: The Wellness Company®.

“When we started this company in 1985, we had one mission: To enhance the lives of those we touch by helping people reach their goals. That is still the purpose that drives us. As The Wellness Company, everything we do—every product we make—furthers that mission.”
—Frank VanderSloot, CEO, Melaleuca, Inc.

A home is a better place to be when it’s clean. Same goes for planet earth. Clean is better for everyone. But is it possible to live a clean life in your own home while making the earth a cleaner place to live? Melaleuca says yes.

For decades, Melaleuca has been at the forefront of highly concentrated, safer, effective, and affordable nature-inspired products that clean homes without making the world a dirtier place.

• **Safer.** EcoSense® products clean your home, your dishes, and your laundry with undeniable reliability—using safer ingredients inspired by nature and proven by science. If there isn’t clear proof that an ingredient is safe, we don’t use it.

• **Effective.** Smarter ingredient choices lead to safer products that work. EcoSense products contain highly efficient, nature-inspired ingredients that have been proven to work hard so you don’t have to.

• **Concentrated.** EcoSense products reduce the negative impact we have on the earth. Concentrated products mean less plastic waste, fewer products shipped, and more savings for you.

• **Affordable.** Better ingredients doesn’t mean a product can’t be affordable. For example, Tub & Tile™ 12x Bathroom Cleaner makes six bottles of product—costing 95¢ per bottle compared to over $3 per bottle for the competitor’s product.

EcoSense formulas are 100% satisfaction guaranteed and contain:

- NO chlorine bleach
- NO ammonia
- NO abrasives
- NO phosphates
- NO phthalates
- NO triclosan
- NO parabens
- NO formaldehyde
- NO quaternary disinfectants

Lung damage linked to national brand cleaning products.
An independent study based on 20 years of research reveals a sobering fact: cleaning your home with common, well-known grocery store products made with ammonia, chlorine bleach, quaternary disinfectants, and other dangerous chemicals significantly damages lung tissue in women. Cleaning with such products as little as once per week is as damaging over time to respiratory health as smoking a pack of cigarettes a day for 20 years! To learn more, visit Melaleuca.com/LungStudy.

Together, we are making a real difference by minimizing negative impact to the earth and our environment without compromising our ability to live in a clean home.

Since 1985, Melaleuca customers have saved:
• 260 million pounds of plastic
• 45 million gallons of gasoline
• 1.4 billion pounds of greenhouse emissions

Choosing EcoSense is an effective yet easy way to do your part in protecting our environment.
